

Color Choice Local Update Instructions

Note: An 8GB or larger USB drive is needed to complete this update transfer.

1. Go to colornetws.com/colornetupdates to access the Color Choice Update website.

2. If needed, click **Color Choice Update Instructions** for update instructions.
3. Next, click **Download Color Choice Update** to begin the update process.
4. The update file begins to download and the status appears in the lower left corner of your window.

5. Once the download is complete, save the Setup.zip file to your USB drive.
6. When finished, insert the USB drive into an available USB port on your Color Choice computer.
7. Next, copy the Setup.zip file to a folder on your Color Choice computer.
8. Locate and right-click the Setup.zip file on your Color Choice computer and select **Extract All**. The Setup.zip file will be extracted to the new folder identified during the extract process.

Note: Write down the location of the extracted files.

9. Go to the new folder and double-click the Setup or Setup.exe file to launch the Color Choice update.

Note: You may have to right-click on Setup and select **Run as administrator** if system security requires.

10. Follow the on-screen update instructions to complete the update.
